

Buy a Local Turkey for the Holidays

This Holiday Season we are asking consumers to change one item on your Holiday menu – TURKEY. Instead of buying a turkey from a supermarket, we are challenging you to buy a turkey that is **locally grown** and sustainably-raised.

Turkey is the centre-piece of your holiday meal. Why not make a statement that you care about serving good quality, fresh food to your family and supporting your local farmers and the environment while doing so. We believe that taking the time to buy locally produced food has positive impacts on a community. So, join us this December in featuring a local turkey on your table.

For information on how and why to buy local, check out our website www.beyondfactoryfarming.org
